Your Access to Complete Healthcare

Guide to Good Health

GYD and healthcare

At GYD, you will discover a whole new approach to healthcare. We realize that today's healthcare needs are different. We have invested in the best infrastructure consisting of sophisticated medical equipment and the best medical professionals who spare no effort that every person goes back with the assurance of placing their health in competent, reliable hands.

Why GYD?

GYD provides access to cutting edge medical technology. On the other, it seeks to retain the personal touch of the family doctor enabling on-to-one patient interaction and personalized attention. At every step, GYD is your guide to a healthy life.

VISION

To provide quality service at an affordable price with special focus on Preventive Medicine and Infectious Diseases.

MISSION

GYD is committed to providing the best-in-class medical treatment coupled with compassionate care in a fully-equipped, modern environment. The Centre aims to set new benchmarks in innovative, systematic, evidence-based diagnostic treatment and support.

Healthcare that cares for you...

Guide to Good Health

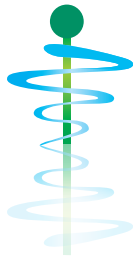

Expert Medical Consulting

One of GYD's main strengths is a team of experienced medical professionals and specialists. This makes the consulting experience at GYD unlike any other. Our medical consultants give individual and personalized attention taking into consideration the lifestyle, age, family history etc. This, backed by sophisticated diagnostic infrastructure, professional lab technicians and a warm, caring staff ensures you have the best-in-class healthcare advice and treatment in tune with your needs.

GYD offers Consulting in the following areas:

- Surgery
- Internal Medicine
- Cardiology
- Gastroenterology
- Gynecology
- Urology
- Dermatology

GYD is in the process of augmenting its medical infrastructure with many new equipment being added shortly.

Value-added Services

GYD offers value-added services designed to assist patients in their journey towards an overall wellness and help manage diseases and illness effectively.

GYD's approach to healthcare is patient-centric and is based on the fact that for healthcare to be relevant it has to be accessible, affordable and reliable.

Non-stop Diagnostic Services

The GYD laboratory is open 24/7 to carry out routine tests in order to facilitate easy access to quality healthcare for people as they need it and when they need it.

GYD at Home

Convenient Home Sampling Services

GYD's approach to healthcare has always been customer-centric. **GYD 24/7** is a unique Home Sampling Service,* exclusive to GYD which virtually takes diagnostics to the patient's doorstep. GYD's medical professionals reach the patient's home and collect the required sample for the specified test. Patients can also access the result of the test through **online reports** speedily and easily.

To access GYD's Home Sampling Service, please call one day prior to registration at **40-42414142 /43/44/45**

GYD Med Dockets

Easily accessible Online Medical Records

The increasing awareness of health as the key to a quality life has brought with it a mushrooming of health-conscious population. Added to this is current lifestyles, stress related factors and family history that has made visits to the doctor or medical specialists more frequent for diagnosis, treatment and management of illness on a long term basis. As such, everyone has to undergo a number of laboratory test and health check-ups.

These critical medical documents need to be organized and stored for repeated reference at any given point in time for the next visit to the doctor or during medical emergencies.

GYD opens the doors for easy, storage, systematic archival of medical records online through the **Med Docket™**.

Highlights

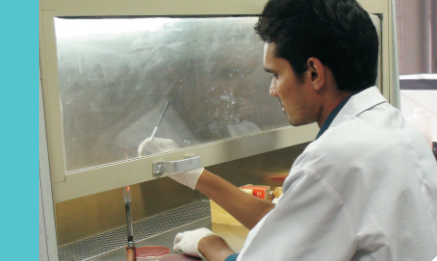

- An advanced, secure Electronic Health Record System
- Enables uploading all health related information (laboratory test results, radiology images, hospitalization records, immunization schedules, medication taken, family history etc).
- Medical summary listing out specific health-related issues at the click of a button!
- Stores your complete health records including pathology results and radiology images

- Organizes information systematically
- Easy to store, access, update and retrieve information
- Generates Medical Summary that works like your Health Horoscope
- Auto alerts generated warn you of laboratory parameters which are not within normal limits
- Graphical trends can be created for your laboratory parameters measured over time
- Reminder generates auto e-mails for your health related tasks
- You can share entire or part of your Medical Summary with anyone in the world – if you wish to – for a second opinion
- Your health records are easily accessible anytime from anywhere in the world

Online Reports

Being accessible to patients is the core essence behind GYD's commitment to deliver the best-in-class healthcare cost-effectively. Patients can access their reports online by simply logging on to the GYD website (www.gydhealth.com) entering their ID and password. The patient's entire medical reports are available on line instantly.

Research & Development

Infrastructure

Research & Development

The building blocks of quality

GYD's understands that research is the corner stone to deliver the best healthcare solutions cost-effectively. Several of GYD's research initiatives are aimed at arriving at break-through diagnostic approaches and passing on the value to patients enabling them to lead a happy, healthy life. Our qualified and dedicated research team continuously seeks newer and better ways to arrive at healthcare solutions that will raise the quality of life itself.

GYD's current research initiatives include:

- Dengue Sero-Prevalence Study
- Association with University of Chicago for a Study on MSM

Other initiatives

Long-term Specimen Storage

This is a tremendous advantage in cases where samples need to be re-tested or new tests need to be conducted. There is no need for the redrawing of samples, saving both the lab technician's time and the inconvenience caused to the patient. Long-term specimen storage also helps to compare and analyze reports with greater ease.

Key People

Expertise meets experience

At the helm of GYD is a team of highly qualified and thorough-bred medical professionals who bring to the table decades of expertise and rich experience in their fields of competence.
